UNIFORMS FOR FOOD HANDLERS

Your Good Looks Run In Our Family[®]

Budget-Uniform.com

A FAMILY TRADITION

Our family has learned a few things after being in the business for half a century. One golden rule? Quality lasts. The quality of our service is designed around the high standard we set at Budget Uniform: when you rent from us, you never have to worry about getting the right garments for the right employee, or about keeping your personnel productive and looking great. Those are all the things we worry about – to make certain you never have to.

- Entire process is handled under one roof
- Owner is on-site

ONLINE ACCOUNT ACCESS

With Budget Uniform, you always know exactly what you're getting. Our computer-based inventory controls ensure that every item is accounted for at all times, and our invoices are itemized for complete transparency. The best part is you can access this information online at any time. If ever you realize you need something else from Budget Uniform, just use the online order form to submit a request, and we'll take care of it as soon as we get back to the office.

- Access billing and inventory information online 24/7
- Invoices itemized by employee and type of garment
- Invoices can be tailored to meet your needs

CUSTOMER SERVICE

We'll ensure that your people will always have what they need to get their job done. We commit to using technology to improve our efficiency and vow to always deliver what you pay for. When you give us a call, you'll be talking to someone just a few steps away from where your uniforms are being cleaned. We will assist you with personal attention, no-hassle special requests, and flawless service. We believe it's just a better way to do business.

- Immediate same-day attention to customers' requests

STATE OF THE ART GARMENT TRACKING

Have you ever had to deal with another uniform rental company delivering improperly bundled garments? Or maybe you've had the wrong garments delivered to you by mistake (while your uniforms were who knows where)? We pride ourselves on never having those problems at Budget Uniform. Our state-of-the-art Garment Processing System uses barcode and radio frequency identification (RFID) chip technologies to track and sort more than 2500 items an hour. It's our business to know exactly where a garment is while it's under our roof.

CLEANSING FORMULAS

We know our business, and that means knowing the right temperature and chemistry for the uniforms we're cleaning, no matter how big or small the load.

- The right chemistry for the food handling industry
- HACCP/GFSI Compliant
- Formulas are regularly checked to assure consistency of quality

CUSTOMIZED PROGRAMS

Our business is designed to fit you. That's why we offer a customized rental program to suit the way you run your company. Please contact us for more details.

Also, our uniforms are durable, high quality garments that are individually fitted just for you. We pick them up on schedule, clean and maintain them, and return them to you ready for wearing.

- Right Fit
- Right Style
- Right Image

TIMELY REPAIRS and REPLACEMENTS

Your business can't be held up just for a routine tear. We're always ready to pull out any damaged uniforms, repair or replace them as needed right away, and send them back to your workforce, so that they can get back to what they do best.

- Rips and tears are repaired
- Replacement if necessary

MAINTENANCE RENTAL

Keeping workers safe and equipment clean keeps business running smoothly. Budget Uniform's mats, mops, food service towels and hand soaps aren't as attractive as our uniforms, but the savings they'll contribute will make you look great on your bottom line.

Budget Uniform Rental

At Budget Uniform Rental, we understand why appropriate food processing apparel is essential, not only in providing adequate comfort and flexibility, but in meeting industry-standard food safety requirements. That's why we make it our mission to provide food handlers with a systematic, certified approach to streamline employee uniform processing.

Budget Uniform Rental can help you achieve or maintain food safety certification through GFSI-approved third-party programs by providing uniform rental, laundering and delivery services that satisfy apparel audit requirements. To meet HACCP standards, we provide uniforms that are specially designed without buttons that could fall off into food, offer color options that help to identify workers by their designated function or zone, separate clean and dirty uniforms from each other, use wash temperatures based on type and degree of soil, and establish a consistent pick-up and delivery schedule. Our HACCP trained employees follow a strict set of sanitation procedures to ensure proper uniform handling, including using specialized washing formulas, separating laundered garments during transport to avoid cross-contamination, conducting testing of clean garments and providing data validation and documentation.

In addition to uniform rental programs, Budget Uniform Rental also offers cleaning and safety supplies, including food service towels, slip resistant floor mats, mops, hand soap, and restroom supplies, keeping your food handling facility safe and sanitary.

**Please see your Budget Uniform representative for details.*

*A wide selection of styles, colors, fabrics, and personalization options are available.**

LOCAL Service Means FAST Service

We've kept our customers close in Southern California since 1959, which means we're always in your neighborhood... so you're never caught without a shirt.
